# PAARTH MAISURIA

www.linkedin.com/in/paarth-maisuria | Paarth Maisuria | Portfolio | P-a-a-r-t-h-M (Paarth)

## PROFESSIONAL SUMMARY

Second-year Bachelor of Information Technology (Software Engineering) student at Eduvos with a strong academic record and practical experience across software development, artificial intelligence, mobile applications, database systems, cloud computing, networking, cybersecurity, infrastructure administration, and enterprise technology solutions.

Experienced in developing business-focused software applications using Python, Java, C++, Android Studio, SQL, MongoDB, Neo4j, and SQLite. Successfully completed the Google AI Essentials Specialization and actively participates in innovative technology projects, including the Eduvos HackJam marketplace platform. Recognised for leadership, problem-solving ability, adaptability, teamwork, and a commitment to continuous learning.

Passionate about applying technology, data, and innovation to solve business challenges across finance, consulting, fintech, software engineering, digital transformation, and emerging technology sectors.

## EDUCATION

**Eduvos**

**Bachelor of Information Technology (Software Engineering)** 2025 – Present
Expected Graduation: 2027
Year 1 Average: 79.17%
**Relevant Areas of Study:** Software Engineering, Mobile Application Development, Database Systems, Cloud Computing, Network Security, Data Structures & Algorithms, Web Server Management, Artificial Intelligence, Project Management, Usability Engineering, Enterprise Networking

**Rylands High School -** National Senior Certificate | 2020 – 2024 | Bachelor's Pass

## CERTIFICATIONS

**Google AI Essentials Specialization: Google / Coursera** (Completed through the CAPACITI AI Programme.)
**Completed courses:** Introduction to AI, Discover the Art of Prompting, Maximize Productivity with AI Tools, Use AI Responsibly, Stay Ahead of the AI Curve
**Skills acquired:** Generative AI, Prompt Engineering, Responsible AI, AI-Assisted Productivity, Applied AI Workflows

## TECHNICAL SKILLS

**Programming Languages:** Python, Java, C++, SQL, Delphi
**Mobile Development:** Android Studio, Java, XML Layout Design, SQLite, Mobile UI Development
**Databases:** Oracle SQL, SQLite, MongoDB, Neo4j, Database Design, ERD Development, Normalisation, Stored Procedures
**Cloud & Infrastructure:** Amazon Web Services (AWS), EC2, VPC Configuration, Windows Server 2019, Active Directory, DNS, DHCP, Group Policy Objects (GPO), VirtualBox, Ubuntu Linux
**Networking & Cybersecurity:** Cisco Packet Tracer, VLAN Configuration, ACL Configuration, NAT, OSPF, RIP, Enterprise Network Design, Network Security Fundamentals
**Artificial Intelligence:** Prompt Engineering, Generative AI Tools, Responsible AI, AI Productivity Tools
**Professional Skills:** Problem Solving, Leadership, Team Collaboration, Communication, Project Management, Business Analysis, Critical Thinking, Analytical Thinking

## KEY PROJECTS

**Eduvos Marketplace Platform (HackJam) | In Progress**

- Collaborating within a multidisciplinary team to develop a marketplace platform enabling Eduvos students to buy and sell products and services.
- Contributing to solution design, business analysis, planning, and software development activities.

**Student Grade Management System | Python, Tkinter, CSV**

- Developed a desktop application for managing student records and calculating academic performance.
- Implemented CRUD functionality, search features, validation, reporting, and error handling.

**Multi-Database Library Management System | Oracle SQL, MongoDB, Neo4j**

- Designed and implemented a library management solution using relational, NoSQL, and graph database technologies.
- Developed database structures, stored procedures, queries, and relationship models.

**Enterprise Network Security Architecture | Cisco Packet Tracer**

- Designed and implemented a secure enterprise network using VLANs, DHCP, DNS, ACLs, NAT, OSPF, and RIP.
- Applied network segmentation and security best practices.

**Transport Cost Comparator Mobile Application | Android Studio, Java, SQLite**

- Developed an Android application for analysing transport costs and generating recommendations.
- Implemented SQLite integration, multi-screen navigation, data validation, and reporting functionality.

**Windows Server Infrastructure Administration Project**

- Configured a virtual enterprise environment using Windows Server 2019 and Windows 11.
- Implemented Active Directory, DNS, DHCP, GPOs, organisational units, and access controls.

## LEADERSHIP & EXTRACURRICULAR ACTIVITIES

**Prefect - Rylands High School** (2024)

- Represented learners and assisted in maintaining school leadership initiatives.
- Demonstrated responsibility, communication, and leadership skills.

**Representative Council of Learners (RCL) - Rylands High School** (2022)

- Participated in student leadership and communication activities.

**Eduvos DevClub** (2025 – Present)

- Actively participate in technology discussions, development activities, and collaborative learning opportunities.

**Hackathon & Innovation Participation**

- Active participant in hackathons and innovation-focused technology challenges.
- Currently participating in the Eduvos HackJam entrepreneurship and software innovation programme.

## PROFESSIONAL DEVELOPMENT

- Completed the Google AI Essentials Specialization through the CAPACITI AI Programme.
- Continuously expanding technical knowledge through software engineering, cloud, networking, cybersecurity, and AI projects. Building a professional development portfolio through GitHub and LinkedIn.
- Actively exploring emerging technologies, digital transformation trends, and business-focused technology solutions.

## INTERESTS

Software Engineering, Artificial Intelligence, Cloud Computing, FinTech & Digital Banking, Cybersecurity, Technology Innovation, Entrepreneurship, Hackathons, Travelling, Soccer, Cricket, Tennis, Table Tennis, Gym & Fitness
